VERMONT-NEA
THE UNION OF VERMONT EDUCATORS

Standing Rules

- 1) At the opening of the first session of the Representative Assembly, the Credentials Committee shall report the number of delegates present in order to establish a quorum; it will also report, at the final session, the total delegates attending.
- 2) Each delegate or alternate delegate must receive credentials from the Corporation Headquarters and must be certified by the Credentials Committee before he/she is entitled to be seated as a voting member of the Representative Assembly. Delegates and guests may be seated together, acknowledging that only delegates and/or alternates may vote. If there is no objection, the President will presume the standing rule of the honor system in voting is observed.
- 3) Any member of this corporation may attend meetings of the Representative Assembly and may speak to the Assembly. He/she shall register with the Credentials Committee by presenting a Vermont-NEA membership card.
- 4) Order of Business and Debate
 - a. The order of Business shall be the first item of business at the opening session of the Representative Assembly and shall consist of the agenda as published in The Call and on vtnea.org.
 - b. The business shall be conducted in accordance with Vermont-NEA Bylaws, the Standing Rules, and special rules incorporated herewith. (Other cases not covered shall be governed by Robert's Rules of Order Revised.)
 - c. There shall be an official parliamentarian appointed by the President to whom questions may be directed through the presiding officer only.
 - d. No member shall speak in debate more than twice to the same question, nor longer than five minutes unless permission is granted by a majority vote of the Assembly.
 - e. No member speaking on a question may move the previous question, nor any member making or seconding a nomination, move that nominations close.
 - f. A roll call shall be taken only after a standing vote of a majority of delegates present. Supervision and counting of roll call votes shall be by the Bylaws and Credentials Committees.
 - g. New business relating to the substantive activities of the Association must be submitted in writing to the presiding officer before the close of the first session. Such new business shall be dealt with only at the final session of the Assembly.
 - h. New business introduced by the Vermont-NEA Board of Directors may be introduced and acted upon at any business session.
 - i. New resolutions of a substantive nature shall be presented at the fall Area Meetings for action at the Representative Assembly, if so recommended by the

Resolutions Committee.

j. New Business pertaining to the procedural operation of the Assembly may be introduced and acted upon at any business session.

k. Any main motion or resolution dealing with the substantive policies of Vermont-NEA shall be presented in writing to the presiding officer at the time of the presentation on the floor, if not previously.

l. Smoking in the meeting room is banned.

Secretary's Report/Minutes of 2016 Representative Assembly

Vermont-NEA 2016 Representative Assembly
8:30 a.m., Saturday, April 9, 2016
Killington Grand Hotel

Minutes

1. Call to Order – 8:40 a.m.

President Allen chaired the Assembly. She called the Assembly to order at 8:40 AM

2. Adoption of Standing Rules

Moved by Howard to adopt the order of business and standing rules with flexibility.

Approved

3. Report of Credentials Committee

As of 8:40AM 54 delegates were registered and seated.

4. Adoption of the Order of Business

President Allen explained the Order of Business and the process for New Business Items and Resolutions.

5. Committee Reports

Moved by Barb Brody to accept the 2016 Committee Reports

Approved

6. Action on Minutes of 2015 Representative Assembly

Moved by Fletcher to approve the minutes of the 2015 Representative Assembly

Approved

7. NEA Fund for Children and Education

Political Organizer Colin Robinson explained the silent auction benefitting the NEA Fund for Children and Public Education. He encouraged members to take an interest elections and the Political Education Action

Committees.

8. President's Report and Introduction of Vermont-NEA Board of Directors

President Allen introduced the Officers and Board. She addressed the Assembly. VT-NEA is strong, and proud of its recommendation of Bernie Sanders. She spoke of school safety, and the trauma students experience which causes safety issues. VT-NEA is working to provide training.

Act 46 is an ongoing issue, and VT-NEA is providing effective legislative advocacy. President Allen outlined NEA and VT-NEA efforts to work against institutionalized racism, as embodied in NEA's NBI B.

9. Presentation of Proposed Budget

Vice President Sylvester presented the proposed budget. The budget as proposed requires a VT-NEA dues increase of \$8.00, from \$424.00 to \$432.00. She reviewed revenue, expenses and the use of Fair Share revenue, and answered questions from delegates.

10. Proposed By-Laws change

President Allen introduced the proposed By-Laws changes, and explained the voting process which is by Australian Ballot during the ensuing break. Discussion and explanations followed by Executive Director Cook.

11. Introduction of Staff

Executive Director Cook introduced VT-NEA staff.

12. Guest Speaker: TJ Donovan, State's Attorney for Chittenden County

NEA Director Don Tinney Introduced TJ Donovan, who is a candidate for Vermont Attorney General. Vermont-NEA has recommended Donovan for AG.

Donovan addressed the Assembly and spoke of his own experience in education, the challenges students and families face, and his own support for unions, as well as his specific support for the right of deputy states attorneys to organize. He spoke of the lack of empathy in the criminal justice system and his commitment to restorative justice.

13. Vermont-NEA Candidate Speeches and Introductions

continued...

Mary Bowers introduced candidates for office. Vice President Sylvester is running unopposed for a second three-year term. She addressed the assembly.

14. Proposed Changes to VT-NEA By-Laws voting result (full text on p. 16 of the Call)

President Allen announced the results of the vote. Voting was by Australian Ballot

A. Do you support the proposed amendment to Article I, Section 1, by adding reference to school safety to Association statement of purpose?

Yes 56, No 0

B. Do you support the proposed amendment to Article V, Section 4.a.xxi, permitting the President to delegate direct responsibility for evaluating the Executive Director?

Yes 55, No 1

C. Do you support the proposed amendment to Article VII providing for preferential voting for Officers and Area Directors?

Yes 53, No 3

D. Proposed amendment to Article XI, Section 1.b.iv, providing a specific name (Political Education Action Committee) to the standing "government/legislative" committee, etc.

Yes 55, No 1

15. Delegate Workgroups, and Filing of New Business and Proposed Resolutions
Delegates worked independently on a variety of issues, including school safety, institutional racism,

The assembly suspended the meeting for the Awards Banquet at 12:00 PM. The Assembly reconvened at 1:36 PM.

16. Guest Speaker: Merwyn Scott, Director of Minority Community Organizing and Partnerships, NEA
NEA Director Tinney introduced Merwyn Scott who addressed the Assembly about NEA's work on NBI-B on institutional racism.

17. Executive Director's Report
Executive Director Joel Cook gave a brief report on the public policy contrast between the 2015 and 2016 legislative sessions.

18. Introduction of candidates for NEA Representative Assembly delegate

President Allen introduced the candidates for Delegate to NEA Representative Assembly.

19. Adoption of Dues Schedule
Moved and seconded by the Board of Directors to set a dues level of \$432.00 for FY17.
Approved

20. Action on Resolutions

Submitted by the Vermont-NEA Resolutions Committee, Chris Guros, Chair

B-5. MULTI-CULTURAL EDUCATION

Text of Resolution: Vermont-NEA believes that goal of multicultural education is the recognition of individual and group differences and similarities. It is a way of helping students perceive cultural diversity so they may develop pride in their own cultural legacy, awaken to the ideals of embodied in the cultures of neighbors, and develop an appreciation of languages and the common humanity shared by all people. To develop self-esteem, as well as respect for others, multicultural education should promote the recognition of individual and group differences and similarities in order to reduce racism, homophobia, ethnic, and all other forms of prejudice and discrimination.

B-17. NONDISCRIMINATION IN EDUCATION

Text of Resolution: Vermont-NEA believes in the equality of all individuals. We acknowledge the existence in our society of institutional racism- the societal patterns and practices that have the net effect of imposing oppressive conditions and denying rights, opportunity, and equality based on race. This inequity manifests itself in our schools and in the conditions our students face in their communities. Discrimination and stereotyping based on such factors as race, gender, immigration status, disability, ethnicity, occupation, and sexual orientation must be eliminated

C-17. TIME TO LEARN

Introduced by: Richard Szymanski

Seconded by: Chris Guros

Text of Resolution: Vermont-NEA believes that time to learn is essential in promoting optimum achievement in school. The Association believes that student

continued...

absences have adverse effects on program continuity and academic achievement. Furthermore, excessive or unusual working hours, including high school start times before 8:00 AM, are detrimental to a student's attention span and academic achievement. The child labor laws, as structured by the Fair Labor Standards Act, must be monitored, enforced, and strengthened by local state, and national governing bodies. (1989, 1992)

G-1. LICENSURE

Introduced by Steve Owens

Seconded by: Don Tinney

Approved by the Central Vermont Fall District Meeting 13-0

Text of Resolution: e. Vermont-NEA believes that teacher and administrative licensure should establish that an individual is qualified to practice. Re-licensure ensures that an individual remains qualified throughout their career. Supervision and evaluation should be evidenced-based and locally negotiated, and should not be addressed by statewide elected or appointed bodies. Moved by Lisa Grout to approve the 4 Resolutions as introduced

Approved

21. Action on New Business

NEW BUSINESS ITEM #1

Introduced by: Terri Vest

Seconded By: Sharon Davison

Date: 4/9/16

Text of New Business Item:

VTNEA shall celebrate accomplished teaching with an event that includes but is not limited to Angelo Dorta Award for Teaching Excellence Awardees, VT Teachers of the Year, National Board Certified Teachers and Candidates, and other recognized by state and national programs.

Approved

NEW BUSINESS ITEM #2

Introduced by: Patty Pomerleau

Seconded by: Bianca McKeen

Date: 4/9/16

Text of New Business Item:

Beginning in 2016-2017 membership year, Vermont-NEA shall provide a permanent, annual line item in the Vermont-NEA budget of \$1000 earmarked to provide grants to first-time student members to cover local, state and national dues. The Representative Assembly or Board may adjust the line item based on increases or decreases to state or national student membership dues.

Approved

NEW BUSINESS ITEM #3

Introduced by: Erin Carter

Seconded By: Chris Guros

Date: 04/09/16

Text of New Business Item:

Beginning in 2016-2017 membership year, Vermont-NEA shall provide a line item in the budget earmarked to provide books for use in the Reading to End Racism program around the state.

Approved

NEW BUSINESS ITEM #4

Introduced by: Shunjiro KidaHome

Seconded By: Sharon Davison

Date: 04/09/16

Text of New Business Item:

VT-NEA will provide educator led professional learning in the areas of cultural competence, diversity and social justice

Approved

22. Membership Recruitment and Engagement Video

A video about the 2016 Summer Leadership Conference was shown to participants

23. Adjournment

Moved to adjourn by Arielle Leddy

Approved

The 2016 Representative Assembly adjourned at 3:30 PM

2016 NEA Director's Report

NEA Director's Annual Report

Donald Tinney

NEA Director for Vermont

The NEA Board of Directors acts for the Association between meetings of the Representative Assembly. The directors monitor the implementation of policy, procedures and programs; they also assume fiduciary responsibilities for the financial solvency of the Association. Members of the NEA Board of Directors serve as a major link between individual members and affiliates and the NEA strategic planning process. NEA directors have significant responsibility for facilitating communications between

continued...

the various groups in the Association family. Working with state presidents, NEA directors lobby Congressional staff at the national and state levels, advancing NEA's federal agenda.

Much of our work during 2016 was obviously focused on the long political campaign season, culminating with the defeat of Hillary Clinton. As an organization, the NEA invested heavily in supporting the campaign of Secretary Clinton and Senator Tim Kaine, as did many individual members and affiliates. In July, she addressed our Representative Assembly in Washington, D.C., when the levels of enthusiasm for and confidence in her campaign were high.

Collectively, the NEA Board of Directors was severely disappointed in the final results, but we had no time to wallow in the defeat of our friends of education, for the enemies of education were about to take the proverbial helm. Our members made nearly three million contacts with their Congressional delegations to argue against the nomination of Betsy DeVos as Secretary of Education. As an organization, we broke our own record for the most contacts made to Congress on a single issue. That's the good news; the election results inspired millions of Americans to become involved with the political process and the resistance movement. At this writing, we are working hard to contact all U.S. Senators, urging them to vote against the appointment of Judge Gorsuch to the U.S. Supreme Court.

As the NEA Director for Vermont, I am proud to say that members of our Congressional delegation--Peter Welch, Bernie Sanders and Patrick Leahy--consistently support public education and the issues about which NEA members care.

The NEA continues to fight the very complex and damaging issue of institutional racism in our schools. Our very own president, Martha Allen, has spearheaded one of many state affiliate initiatives to put an end to the school-to-prison pipeline. While New Business Items historically have a one-year shelf-life, the NEA leadership has decided to not set any deadlines on this initiative. We will work on this issue for as long as it takes.

If you have any questions, please do not hesitate to contact me via email:
donalddtinney@gmail.com

2016 Committee Reports

Elections Committee Report

The Election Committee certified the results of the general election and a special run-off contest in Northeast Kingdom Area 1 and Southern Vermont Area 2. Here are the winning candidates:

Vermont-NEA Vice President: Alison Sylvester;
Addison-Rutland Area 1 Board Director: Steve Orzech;
Central Vermont Area 2 Board Director: Gail Parent;
Chittenden Area 1 Board Director: Keren Turner;
Northeast Kingdom Area 1 Board Director (Required Special Election): Lorin Hosmer;
Northwestern Vermont Area 1 Board Director: Denette Locke;
Southern Vermont Area 2 Board Director (Required runoff election): Brian Howe.

Delegates to the 2017 NEA Representative Assembly: Patricia Thompson; Alison Sylvester; Mary Bowers; Erin Carter; Eric Weiss; Denette Locke; Chris Guros; Christie Therault; Steve Owens; Darcey Fletcher; Ashley Dunley; Aimee Hawkins; Linda Howard; Teri Vest; April Morse. The retired delegate to the NEA RA: Linda DeLiduka.

The Election Committee is Mary Bowers (Chair), Keith Mullins, Donald Tinney, Kristie Ferguson (staff), and Mary Graves (staff).

Partnerships and Sponsorships Committee Report

A total of 10 groups applied for \$20,100 worth of sponsorships and partnerships; the budget is \$19,000. The committee recommended to the board the following levels of sponsorship:

VERMONT-NEA
THE UNION OF VERMONT EDUCATORS

continued...

- Friends of Dorothy Canfield Fisher – asked for \$1,500, recommend \$1,500
- Vermont-NEA Scholars Bowl – asked for \$12,000, recommend \$12,000
- Starbase-Vermont – asked for \$500, recommend \$500
- The Governor’s Institutes of Vermont – asked for \$2,000, recommend \$1,500
- Vermont Debate and Forensics League – asked for \$1,000, recommend \$1,000
- Vermont Destination Imagination – asked to continue listing us as a partner, recommend yes. (No money requested)
- Vermont Foreign Language Association – asked for \$100, recommend \$500 (direct teacher stipends to attend conference)
- Vermont Partnership for Fairness and Diversity – asked for \$2,000, recommend \$1,500
- Vermont School Library Association – asked to continue printing and distributing Summer Reading Lists. No money from this committee is needed; Vermont-NEA will continue to print these lists as we have for more than a decade.
- Vermont State School Nurses’ Association – asked for \$500 to \$1,000, recommend \$500.

Total recommended spending: \$19,000.

Respectfully submitted,

Darren Allen

Human and Civil Rights Committee Report

The Vermont-NEA Human and Civil Rights Award committee is pleased to announce the recipients of the 2017 awards. Recipients will receive an award certificate and an award of \$250 at the Vermont-NEA Representative Assembly on March 25 at the Capital Plaza in Montpelier.

Steven Tatum is an educator at Lake Region Union High School in Orleans, Vt. Steven is a member of Educators and Parents for Racial Justice, a group of parents and educators that works for civil rights and racial justice. Steven also integrates these themes into his English curriculum and works with colleagues, students, parents, and community members to find ways to improve the culture of LRUHS, the Orleans County communities, and beyond.

Muslim Girls Making Change (MGMC) is a youth group from Burlington High School and South Burlington High School. Hawa Adam, Kiran Wagar, Lena Ginawi, and Balkisa Abdikadir use poetry to express their commitment to social justice. They have performed at numerous events at the local and national level, including the recent Women’s March on Montpelier and Brave New Voices, a nationwide poetry competition that took place last July in Washington DC.

Respectfully submitted,

Lance Mills

Scholarship Committee Report

As always, it is our pleasure to announce the winners of this year's Maida F. Townsend Scholarship Awardees. From all over the state, these sons and daughters of Vermont-NEA members proved worthy with their achievements and goals. Please read today's program to learn more about them. Congratulations to all:

Alexander Bickart, Peoples Academy
 Avery Ellis, North Country Union High School
 Lucia Gagliardone, Bowdoin College
 Brady Illingworth, Bellows Falls Union High School
 Conor Joyce, Hartford High School
 Eva Kamman, Vergennes Union High School
 Dana Marsh, North Country Union High School
 Eleanor Martin, Vergennes Union High School
 Quinn Trybus, Burlington High School
 Grace Willeam, Lamoyille Union High School

ESP Leadership Advisory Committee Report

The ESP Leadership Advisory Committee decided to try a new nomination process given the small number of nominations last year. Nominations will be accepted by name only throughout the year through online submission or special cards made available at all major Vermont-NEA events. Committee members will follow up with nominators to gather information on the nominees in May. We hope this will expand the pool of nominations. The 2017 Vermont-NEA ESP of the Year is Loretta Johnson from Rutland Northeast Education Association – Paraeducator and Bus Driver Unit. The 2017 Vermont-NEA ESP of the Year Runner Up is Margaret Russo from Windsor Southeast Education Association.

PD Committee Report

The Vermont-NEA Professional Development Committee oversees professional development by Vermont-NEA. This year has seen an expanding professional development presence in Vermont.

1. National Board Certification and Renewal - Over 60 teachers are working within Vermont-NEA programs for NBC Renewal and Initial Certification.
2. Peer Review Alternative Route to Licensure- this new course has been popular in supporting educators working under a provisional license, and wishing support in building their certification portfolio for Peer Review.
3. ESP Conference - this year our conference has both full and half day sessions so participants can go more deeply into one subject.
4. Summer 2016 Trainings- Vermont-NEA had a wide variety of offerings this past summer, with most facilitated by Vermont-NEA Members. Summer 2017 will include more college credit coursework through Vermont-NEA facilitated courses.
5. Teacher Mentoring- Vermont-NEA has expanded its mentoring program into more districts this year, with several requests for the 17-18 school year. The Danielson Group selected Vermont as a pilot site for its new mentoring program using the "Clusters," bringing four days of free training to the Northeast Kingdom to train new mentors.
6. Student Program- The PD Committee is expanding to include a Student Program Member for the 17-18 year. The Director of Professional Programs has been working with the SP Members as Vermont-NEA builds this program in order to strengthen the first year teacher experience.
7. College Coursework - Our relationship with Castleton University has grown over the year, with many course offerings offering college credit.

The make-up of our PD Committee includes teachers (new, middle career, senior) as well as ESP Members (all paraeducators). We are looking for other categories of ESP Members and encourage anyone interested in joining this committee to contact Juliette

Longchamp, Director of Professional Programs.

Respectfully submitted,
Juliette Longchamp

NBCT Committee Report

The Vermont-NEA National Board Certification Committee has had a busy year. This summer, Kate McCann and Juliette Longchamp attended the National Board Academy in Las Vegas, NV. There, they created our yearly goals and gathered some excellent resources, including the NEA Jumpstart Materials to support candidates through National Board Certification. This year, our committee is supporting approximately 55 initial candidates and 10 renewal candidates. This represents a greater than 50% increase from last year. This spring, we are sending one NBCT to NEA to work on revising the Jumpstart Materials with other NBCTs from the states, and training two people in Jumpstart at the Montgomery Institute. We added two cohorts of candidates this year, one at Williston Central School and one at Rutland Northeast Supervisory Union. The continuing sites include Burlington, U-32, Online, Middlebury, and SVSU. This coming December will be the first round of newly certified NBCTs from the revised NBCT Process.

Respectfully submitted,
Kate McCann, NBCT
Ian Bleakney, NBCT

Vermont-NEA PEAC Committee Report

The Statewide PEAC Steering Committee has continued to meet once a month.

The PEAC Steering Committee was deeply involved in developing and implementing the 2016 election program. This included development of the candidate questionnaire and reviewing, in collaboration with regional PEACs and the Board of Directors, all candidates for statewide and legislative office and ultimately recommendations, for primary and general elections.

Additionally, the PEAC Steering Committee moved fully into its role reviewing and making recommendations to the Board any donations from the Vermont-NEA Fund for Children and Public Education over \$500.

This resulted in donations to 74 candidates for office in 2016. The Regional PEACs were involved in the candidate interview process and members were involved in providing support to Vermont-NEA supported candidates throughout the 2016 elections.

The volunteer activities included canvassing to candidates, member to member phone banking and get-out-the-vote activities. As in the past, the PEAC Steering Committee helped to develop the Vermont-NEA 2017 legislative agenda, monitor legislation during the session, and plan the two 2017 Stand Up For Students Days (formerly Lobby Days).

This year Stand Up For Students Days experienced a significant increase in the number of members attending, especially for the first time.

Proposed 2017 Changes to Vermont-NEA Bylaws

There are no proposed changes to Vermont-NEA Bylaws for the 2017 Representative Assembly. As always, you can find the most up-to-date bylaws and resolutions at www.vtnea.org/leadershipbook.

2017 Changes to Vermont-NEA Resolutions

Proposed Resolutions

Moved by the Resolutions Committee, Chris Guros,
Chair

A-8 School Consolidation

Vermont NEA believes that the consolidation of schools should be treated on a case by case basis depending on the will of the communities involved.

C-11 Student Protection

Vermont-NEA believes that all students, regardless of sexual orientation, gender identity or gender expression should be afforded equal opportunity and guaranteed a safe and inclusive environment within the public education system. The Association also believes all students should feel safe from harassment or bullying when using the restroom. Therefore, schools should permit students to use the bathroom of the gender they identify with and provide a gender neutral bathroom for those that feel unsafe or uncomfortable using the gender specific restrooms.

D-20 Return of Signed Contracts or Letters of Intent to School Administrators

Vermont NEA recognizes that life situations may change and, as a result, school employees may need to relocate or consider employment at another school. School employees should be given sufficient time to review an offered assigned position and pursue other job opportunities before contracts for the following school year are due to school administration.

F-20

P. If an employee needs to leave their classroom during the school day for medical reasons, including but not limited to breast pumping and/or insulin injection, the employee will be provided with a substitute and a safe, secure location on site.

*Current F-20 P will be renamed q and so on.

I-14 Immigration

The Association recognizes that historically there have been many economic and/or political circumstances that have compelled people to come to the US. The Vermont NEA supports efforts to improve the immigration process, including the provisions of due process, equal protection, and access to status without regard to national origin and/or religion. The Association also supports policies that protect the integrity of the family unit and deplores the hardships imposed on families when family members, especially parents, guardians, or caretakers, are detained and/or deported for immigration status offenses and thereby separated from their children, many of whom are U.S. citizens. The Association believes that English, adult education, GED, and citizenship classes should be available in sufficient numbers to ensure that immigrants can comply with all federal mandates for permanent residence and/or citizenship. The Association also believes that the federal government is responsible for the enforcement of immigration policy.

I-15 Mass Incarceration

The Vermont NEA recognizes that substance abuse has been criminalized through the War on Drugs. The Vermont NEA further recognizes that the War on Drugs has resulted in the mass incarceration of people of color and that this is a form of institutional racism. Vermont NEA further believes that laws that criminalize substance abuse should be altered and replaced with policies that treat substance abuse as a mental health problem and provide treatment in place of prison time.

Vermont-NEA Crisis Fund Guidelines

Purpose

To protect Association members who are on strike from serious financial loss, to provide a source for short term borrowing by Vermont-NEA to maintain necessary cash flow, and for other emergencies as approved by the Board of Directors.

Administration

- 1) The Vermont-NEA Board of Directors will determine guidelines for disbursements from the fund.
- 2) The Vermont-NEA Executive Committee will approve disbursements from the fund.

- 3) The Vermont-NEA Executive Director and Crisis Coordinator will administer the fund.
- 4) Crisis fund benefits will be paid only to individuals.

Eligibility for Benefits

- 1) Only Vermont-NEA members may receive benefits.
- 2) Members may receive benefits if they lose pay in a job action, but benefits are not automatic.
- 3) Benefits will not be available to members who violate policy established by the striking local Association, especially crossing a picket line.

We're still Feelin' the Bern! Thank you, Senator Sanders, for all you do for working families, schools, and unions.

Vermont-NEA Purpose and Priorities

Our Purpose

We, the members of Vermont-NEA, through advocacy, collaboration and leadership, work for social, economic and racial justice for our members and students. Committed to equity and inclusion, we empower a public education community where our members have a united voice that promotes safe and respectful learning environments for all.

Our Priorities

Student Achievement

All students have the opportunity to achieve the highest standards they can. We support:

- Safe, secure, and civil learning and working environments for all students and school employees
- A system that recruits and retains highly qualified and diverse educators and enhances their skills
- Adequate and equitable public school funding
- School curricula, policies, and procedures developed with local Associations

Association Member Well-Being

All educators have high professional satisfaction and economic security. We stand for:

- Excellent compensation, benefits, and working conditions for members
- Protection of the rights of educators
- High participation by members in NEA and Vermont-NEA programs and activities
- Responsiveness to changing needs of members

Active Membership

Members participate in the life of the Association. We strive for:

- Continuing growth in the number of members
- Active, well-organized, self-sustaining local and state Associations
- Good communication between Vermont-NEA and its local Associations and members

Public Support

Parents, business, and the general public support public education. We work for:

- Election of candidates for public office who share Association views on education, labor, and social issues
- Public recognition of Vermont-NEA as an advocate for excellent public schools and high student achievement
- Active and well-informed parents, communities and policy makers who support public schools
- Consistently positive media coverage about public schools, public school employees, and their Association

- J-1. Membership Participation in the Association
- J-2. Retired Member Participation
- J-3. Promotion of Teaching as a Career Choice

A. SERVE AS THE STATE VOICE FOR EDUCATION

A-1. SCHOOL ACCOUNTABILITY

Vermont-NEA supports holding school sites accountable when other parts of a comprehensive system-district, state, and national stakeholders-are also held accountable for providing the resources and other support personnel systems and materials necessary for schools to reach their goals. An effective and fair school accountability system must focus on the school as a unit for improvement and evaluation and ensure that the best practices are encouraged and supported.

The Association believes that school accountability

systems must include training for education employees through professional development prior to implementation and procedures for evaluating and improving such systems. Exposure to school accountability systems should also be a part of preservice preparation.

The Association also believes that school accountability must be implemented throughout the school community through a collaborative, interactive, and continuous process by which local affiliates, students, parents/guardians/caregivers, education employees, the public, and policymakers define and support the goals of the school.

A well-designed school accountability system:

- a. Promotes education excellence;
- b. Has a balanced focus combining school context, processes, and student performance;
- c. Is based on high standards for all students and multiple assessment tools and sources of data, including an examination of the resources needed and those allocated;
- d. Focuses on the school and its goals, not the individual performance of the school staff or other stakeholders;
- e. Is consistent with education employees' rights and responsibilities as set forth in collective bargaining laws and contracts, meet and confer understandings, and or policies;
- f. Is applied in a fair and equitable manner;
- g. Identifies external factors that impact student learning and achievement; and
- h. Provides for the development of school improvement plans.

The Association further believes that the school improvement process must, as a minimum,

- a. Involve the school's staff as an active partner in the development of the plan;
- b. Provide the resources and assistance necessary to accomplish the plan;
- c. Identify the responsibilities of each of the stakeholders in the implementation of the plan; and
- d. Provide time for planning, implementation, and reassessment. (2000)

A-2. EDUCATIONAL FINANCE

Vermont-NEA believes that the funding of education is the shared responsibility of federal, state, and local governments. State aid funds should be allocated equitably, adequately, and directly for educational purposes.

The Association strongly supports the concept of providing equal educational opportunity for all Vermont children in the public schools to enable them

to achieve educational excellence. Such an education requires adequate and equitable funding from public tax sources (e.g., personnel, programs, materials, buildings, and technology) to meet the needs of all students. The Association also believes that:

- a. Tax revision favorable to public education should be encourage and continually reviewed at every governmental level.
- b. Local school boards must be fiscally independent, and restrictive limits must not be imposed on their budgets or long-term borrowing.
- c. State and federal and local mandates affecting public education programs must be accompanied by adequate and equitable funding to cover the cost of achieving the goals of raising student performance, implementing new programs, and raising standards of student learning.
- d. Funding should be greater for students facing social, economic, and/or education challenges.
- e. It is inappropriate to support the education programs of a public school by the sale of non-nutritious foods and beverages to students during the school day.

The Association opposes providing any public revenues to Pre-K through 12 schools for sectarian instruction.

The Association strongly urges the retention of funds received from teachers in payment for licensure and relicensure for the purpose of supporting the activities of a professional standards board. The Association opposes the transferal of such funds to the State General Fund. (1987, 1988, 1989, 2006, 2011)

A-3. VOUCHER PLANS

Vermont-NEA believes that voucher plans, tuition tax credits, or other funding/financial arrangements that use tax monies to subsidize Pre-K through 12 private school education can undermine public education and reduce the support needed to fund public education adequately.

The Association opposes any funding arrangements that pay for students to attend sectarian schools or for students to attend nonsectarian Pre-K through 12 private schools in order to obtain educational services that are available to them in public schools to which they have access.

The Association also believes that any private school or agency that receives public funding through voucher plans, tax credits, or other funding/financial arrangements must be subject to all accountability measures and regulations required of public schools. (2006)

A-4. INTERDISTRICT PUBLIC SCHOOL CHOICE

Vermont-NEA believes that the goal of interdistrict public school choice plans must be to expand educational opportunities for all students who are eligible to participate. Furthermore, involvement in interdistrict public school choice programs must be voluntary for both sending and receiving school districts and be based on cooperative agreements between partnering school districts.

Vermont-NEA will oppose school choice programs which are mandated by the state and/or based on a competitive model which ultimately permits public schools to fail as a result of dwindling finances and diminishing educational programs.

In promoting and evaluating interdistrict public school choice plans, Vermont-NEA and its affiliates will pay particular attention to the following beneficial features:

- a. A comprehensive school improvement strategy — including instructionally sound intradistrict options— with interdistrict public school choice simply as one element;
- b. Maintenance of electoral fiscal and curricular accountability to local communities among participating school districts;
- c. Provisions for effectively achieving equal student access which address transportation, admissions procedures, enrollment capacities, and specialized student services;
- d. Protection of student confidentiality rights, of access by parents and citizens to school information, and of legal standards and requirements;
- e. Procedures to regularly inform and counsel students and parents about their rights and responsibilities and about program requirements and limitations;
- f. Procedures which maintain the community base, heterogeneity and integrity of all schools in Vermont. (1998)

A-5. MEDIA UTILIZATION

Vermont-NEA encourages the creative and innovative use of media for improving instruction. The Association further urges its local affiliates to become involved in the utilization of these media sources. (1989, 1999, 2012)

A-6. PUBLIC UNDERSTANDING

Vermont-NEA believes that professional associations must promote public understanding of education and encourage wide public and parental participation in solving education's problems.

Vermont-NEA urges that local Associations, with the assistance of Vermont-NEA staff, make production and distribution of community newsletters a priority activity.

A-7 IMPROVING AND MAINTAINING EDUCATIONAL FACILITIES

Vermont NEA believes that many educational facilities are in a state of decay, neglect, and/or deterioration. The Association supports funding to modernize, expand, replace and/or maintain these facilities in order to provide a safe, healthy, and effective teaching and learning environment for students and education employees.

The Association also believes that the community, parents/guardians, students, and education employees must be effectively involved in the development of plans to modernize, expand, and/or replace facilities.

The Association further believes that preventive maintenance in all facilities is equally important in achieving these goals. (2010)

B. ADVANCE THE CAUSE OF EDUCATION FOR ALL INDIVIDUALS

B-1. STANDARDS FOR STUDENT LEARNING

Vermont-NEA believes in high standards that describe clear expectations for what students should know and be able to do. Throughout the implementation of content and performance standards, all students must be provided the instructional opportunities and learning conditions necessary to attain the standards. The Association supports the development and use of a variety of assessment appropriate to the standards.

- The Association also believes that state and local affiliates must participate in the planning, development, implementation, and refinement of standards, conditions, and assessments to ensure that-
- a. Students, parents/guardians/caregivers, education employees, community members, and government officials are involved and share the accountability;
 - b. Education employees are afforded released time and/or compensation in order to have opportunities to work with colleagues on a regular basis throughout the school year on how to teach and assess student proficiency in the standards;
 - c. Full funding and resources are provided;
 - d. Curriculum includes, but is not limited to, required standards. Standards are introduced into the curriculum at a rate that allows education employees opportunities to adapt their practice, work with each other, and pilot the work in a concerted fashion;
 - e. A variety of assessments will be used to evaluate each student's progress toward attaining standards;
 - f. Appropriate attention is given to the needs and

continued...

developmental levels of each student;
g. Professional development is provided for all education employees to help align their practices to the standards; and
h. Education employees participate in the review and refinement of standards and assessments. (2000)

B-2. ACADEMIC CONTENT IN CURRICULUM

Vermont-NEA believes parents and community members should be informed regularly of the contents of curriculum and the planned schedule used in presenting curriculum to students.

Vermont-NEA urges all school boards to establish, as an objective, the development of an integrated Pre-K-12 curriculum. There should be balance in curriculum between method and content.

Vermont-NEA also believes that academic learning and achievement of educational skills foster long-term self-esteem. (1998)

B-3. ACADEMIC PROGRAM CHOICE FOR SECONDARY EDUCATION

Vermont-NEA believes that multiple programs of study should be established

for secondary education, grades 7-12, which:

- a. Enforce clear academic and behavioral standards that students must meet to enter a program;
- b. Provide information to both parents and students to help them understand the varying skills, intellectual development, and workload each course requires;
- c. Provide a rigorous and appropriate academic program for all students;
- d. Assure that all student work demonstrates high academic standards regarding content and skill development;
- e. Provide ongoing and comprehensive remediation to any child who needs it; and
- f. Offer distinct instructional programs reflecting differing approaches to education and different learning styles.

Vermont-NEA urges investigation of ways in which public school districts can join with each other to allow for a wider choice of educational options. (1998)

B-4. DRIVER EDUCATION

Vermont-NEA believes that driver education courses that include both classroom and behind the wheel experiences should be part of the public education of all students and should be taught by teachers licensed by the Vermont Standards Board for Professional Educators in driver education. (2001, 2013)

B-5. MULTI-CULTURAL EDUCATION

Vermont-NEA believes the goal of multicultural education is the recognition of individual and group differences and similarities. It is a way of helping students perceive cultural diversity so they may develop pride in their own cultural legacy, awaken to the ideals embodied in the cultures of neighbors, and develop an appreciation of languages and the common humanity shared by all people. To develop self-esteem, as well as respect for others, multicultural education should promote the recognition of individual and group differences and similarities in order to reduce racism, homophobia, ethnic, and all other forms of prejudice and discrimination. (1992, 1993, 2016)

B-6. ENGLISH LANGUAGE LEARNERS

Vermont-NEA urges the implementation of a comprehensive English Language Learner program for the entire state where it can be clearly established that a need for such a program exists. The financial resources of the local, state, and federal governments shall be utilized to achieve adequate funding for the English Language Learner program. (1992, 1999, 2012)

B-7. SEXISM IN EDUCATION

Vermont-NEA believes that sexism and sex discrimination must be eliminated from instructional environments.

The Association:

- a. Believes that educational materials and processes should accurately portray women and their contributions throughout history;
- b. Urges educators to use instructional materials that positively portray various careers and personal roles as acceptable and attainable for all individuals regardless of gender or sexual orientation;
- c. Believes that discrimination and stereotyping in curricula, textbooks, resource and instructional materials, activities, etc. must be eliminated;
- d. Endorses the use of non-sexist language.

To attain these goals, Vermont-NEA believes training is necessary for all educational employees. (1993, 2003)

B-8. EQUAL OPPORTUNITIES THROUGH MATHEMATICS, SCIENCE, AND TECHNOLOGY EDUCATION

Vermont-NEA believes mathematics, science and technology education are means of helping women and minorities enjoy equal opportunities and equitable treatment for employment and full participation in society.

The Association supports development and maintenance of gender-free and culturally unbiased mathematics, science, and technology programs that meet the needs of women and ethnic groups. (1993, 1994)

B-9. DISCRIMINATORY ACADEMIC TRACKING

Vermont-NEA believes academic tracking based on socioeconomic status, race, or gender must be eliminated in all public school settings. (1993)

B-10. GRADE ADVANCEMENT AND GRADUATION REQUIREMENTS

Vermont-NEA believes that each school district should provide to all students, at regular intervals, comprehensive assessments, including observations, a variety of work samples, portfolios, authentic measures, and reliable standardized tests to:

- a. Measure their academic achievement;
- b. Identify any need for remediation; and
- c. Determine their eligibility for grade advancement and graduation.

Vermont-NEA further believes each school district should provide the services needed in elementary school to assure that students meet performance requirements in all curricular areas.

Vermont-NEA also believes all middle and secondary school programs should have in place rigorous academic programs through which their students advance toward graduation through acquisition of requisite skills (Vital Results) and academic performance. Secondary school programs should be characterized by:

- a. Course offerings with uniformly high academic standards; and
- b. Clear standards for any student's admission and retention. (1998)

B-11. REGULAR PLANNING AND GUIDANCE FOR ALL STUDENTS

Vermont-NEA believes that prior to or within the first month of each school year, all parents should attend parent informational meetings for the purpose of obtaining a clear understanding of the expectations that classroom and other teachers have for their children, with respect to both behavior and academic performance.

Vermont-NEA urges all school boards to establish, as an objective, the development of an integrated K-12 curriculum.

Vermont-NEA believes that each school district should assure that all students are provided academic and

career planning guidance which involves them and their parents and which is designed:

- a. To ensure that students and their parents are aware of educational opportunities, programs, and graduation requirements;
- b. To assist students and their parents in monitoring and planning academic development and social growth in a consistent and comprehensive fashion from the 7th through the 12th grade; and
- c. To support students and their parents in making career planning and post-secondary decisions. (1998)

B-12. ASSESSMENT OF STUDENT LEARNING

Vermont-NEA supports the ongoing and comprehensive assessment of student growth. A student's level of performance is best assessed with authentic measure directly linked to the lessons teachers teach and the materials teachers use.

The Association believes that the primary purposes of assessment are to:

- a. Assist students and their parents/guardians/ caregivers in identifying the student's strengths and needs;
- b. Encourage students to become lifelong learners;
- c. Measure a program's effectiveness, communicate learning expectations, and provide a basis for determining instructional strategies; and
- d. Develop appropriate learning experiences for students.

The Association also believes that no one measure should be used to determine a student's performance. Teachers should utilize a variety of measures to accurately assess student growth. All methods of assessment shall provide the necessary accommodations, modifications, and exemptions, and be free of cultural, racial, and gender biases.

The Association further believes that classroom teachers must be involved in the development of assessment systems and are best qualified to determine the criteria for assessment of students and dissemination of results. (2000)

B-13. STANDARDIZED TESTING OF STUDENTS

Vermont-NEA believes that standardized tests should only be used to improve the quality of education and instruction for students. Standardized tests are most useful when selected by educational professionals closest to the classroom and integrated with assessment information specific to local programs. Affiliates should advocate the design and use of a

continued...

variety of developmentally appropriate assessment techniques that allow necessary accommodations, modifications, and exemptions and are bias-free, reliable, and valid. When a test is mandated at the state or the national level, it should only be used to evaluate programs toward meeting state or national standards and/or goals.

The Association opposes the use of standardized tests when:

- a. Used as the criterion for the reduction or withholding of any educational funding;
- b. Results are used to compare students, teachers, programs, schools, communities, and states;
- c. Used as a single criterion for high-stakes decision making;
- d. They do not match the developmental levels or language proficiency of the student;
- e. Student scores are used to evaluate teachers or to determine compensation or employment status; and
- f. Programs are specifically designed to teach to the test.

The administration of a standardized test includes the responsibility to educate the stakeholders in the purpose of the test, the meaning of test results, and the accurate interpretation of conclusions. (2000)

B-14. METRIC SYSTEM

Vermont-NEA urges that the International System of Units (SI Metric System) or weights and measures be taught at all educational levels.

B-15. INTERNET ACCESS

Vermont-NEA believes that every school classroom, office, teacher workroom, and library/media center should have affordable, high-speed, seamless, and equal access to the Internet.

The Association also believes that education employees are essential to the development of an acceptable use policy (AUP) and to the appropriate use of the Internet. The Association further believes that an AUP that requires the signatures of parents/guardians and students must be in place before allowing student access.

The Association believes that Internet access and activities should be age appropriate and monitored and should foster critical use. Any documentation material produced as a result of Internet access should be properly cited and comply with copyright laws. (2002)

B-16. EARLY CHILDHOOD EDUCATION

Vermont-NEA supports early childhood education programs in public schools for children from birth through age eight. The Association also supports a

high-quality program of transition from home and/or preschool to public kindergarten or first grade. This transition should include communication and cooperation among parents/guardians, the preschool staff, and the public school staff. The Association believes that such programs should be held in facilities that are appropriate to the developmental needs of these children. The Association also believes that early childhood education programs should include a full continuum of services for parents/guardians and children, including child-care, child development, developmentally appropriate and diversity-based curricula, special education, and appropriate bias-free screening devices. Early childhood education programs must also be sensitive to and meet the physical, social, mental, and emotional health and nutritional needs of children.

The Association further believes that early childhood education programs should maintain small group size with appropriate staff/child ratios for each age level. The Association recognizes the importance of active parental involvement in a child's development and education. Parents/guardians should be made aware of the expectations that will be placed on the child as well as familiarization with new policies and procedures that the child will experience. Parents/guardians should be provided with information to allow them to access education related child services (e.g. screenings, testing, advocacy programs, etc.).

The Association supports regulations requiring children starting kindergarten to have reached age five or have demonstrated developmental readiness at the beginning of a kindergarten program.

The Association advocates the establishment of fully funded early childhood special education programs. These programs and necessary services should be readily accessible for children with disabilities and staffed by certified/licensed teachers, qualified support staff, and therapists. (2003, 2005, 2013)

B-17. NONDISCRIMINATION IN EDUCATION

Vermont-NEA believes in the equality of all individuals. We acknowledge the existence in our society of institutional racism- the societal patterns and practices that have the net effect of imposing oppressive conditions and denying rights, opportunity, and equality based on race. This inequity manifests itself in our schools and in the conditions our students face in their communities. Discrimination and stereotyping based on such factors as race, gender, immigration status, disability, ethnicity, occupation, and sexual orientation must be eliminated.

The Association also believes that plans, activities, and

programs for education employees, students, parents/guardians, and the community should be developed to identify and eliminate discrimination and stereotyping in all educational settings.

The Association encourages its affiliates to develop and implement training programs on these matters. (2003, 2016)

B-18. ALTERNATIVE PROGRAMS FOR ALL AT-RISK STUDENTS

Vermont-NEA recognizes that there must be increased development and maintenance of alternative programs to meet the needs of at-risk or special needs students. The Association recommends early and appropriate identification and placement of these students.

Teachers and administrators should receive necessary training in diagnostic processes and alternative methods of teaching and learning. Appropriate training should also be provided to educational support staff.

Programs should emphasize a broad range of activities for responding to students' differing behavioral patterns, interests, needs, and learning styles.

Teachers in these programs must have a major role in designing the objectives and evaluations and working with appropriate school and community personnel to execute these objectives and evaluations.

The Association urges its affiliates to seek adequate compensation, planning time, materials, and facilities for educational employees in these programs. (2003)

B-19. GIFTED, TALENTED, AND CREATIVE STUDENTS.

Vermont-NEA recognizes that there must be increased development of educational programs to meet the needs of all students (Pre-K-12) who have been identified as being exceptional in the creative arts, intellectual ability, leadership, and/or the psychomotor domain.

Vermont-NEA supports the multisensory identification of these students through both formal and informal methods which are developed by a committee, the majority of which is teachers. In-service training of educators is needed with provisions for program development at the local, state, and national level. Vermont-NEA supports the formation of a policy by the state department of education for distribution of federal aid for the education of the exceptional. Financial support should be given to a greater variety of instructional approaches, thus making more options available to the local schools. (1988, 1990, 1991, 1992, 2003)

B-20. HOMEBOUND INSTRUCTION

Vermont-NEA believes that homebound students,

those educated in the home because of individualized student needs determined by established local school procedures, must receive instruction that follows the regular curriculum. This instruction must be implemented, documented, monitored, and assessed by a licensed teacher. The Association also believes that credits earned through such homebound instruction should be accepted toward promotion and/or graduation requirements. (2007)

B-21. DISTANCE LEARNING

Vermont NEA believes that quality distance education can create or extend learning opportunities but is not an alternative to traditional education that allows for regular face-to-face interaction among students, peers, and instructors.

The Association opposes arrangements whereby elementary, secondary, and undergraduate students receive all or most of their education through distance education and rarely, if ever, convene in an actual classroom. The Association recognizes that exceptions may be warranted in particular cases. (2010)

B-22. PERSONAL ELECTRONIC DEVICES IN SCHOOLS

Vermont NEA believes that schools should develop guidelines for the acceptable use of personal electronic devices during the school day. Such guidelines should promote respect for privacy, intellectual integrity, and a positive learning environment. (2010, 2013)

B-23. TECHNOLOGY IN THE EDUCATIONAL PROCESS

Vermont-NEA believes that technology in the educational process improves learning opportunities for students, quality of instruction, effectiveness of education employees, and provides opportunities to reduce educational inequities.

The Association supports increased federal, state, and local resources, along with public/private partnerships, to fully fund equipment purchases/leases/upgrades, maintenance, technical support, training, evaluation, and staffing to support the full use of technology in public schools. (2013)

C. PROMOTE THE HEALTH AND WELFARE OF CHILDREN AND/OR STUDENTS

I. HEALTH, WELFARE, AND SAFETY

C-1. HEALTH OF CHILDREN

continued...

Vermont-NEA recognizes that the total environment including home, school, and community affects the mental, emotional, and physical health of children. Vermont-NEA encourages special preventative services in the schools for the early detection of impending difficulties.

The Association promotes an awareness of wellness and the establishment of programs for the development and maintenance of lifelong, positive, health habits. (1989, 1990, 1992, 1994, 2013)

C-2. NUTRITION

Vermont NEA believes that proper nutrition is essential to child development and student success. The Association also believes that proper nutrition must be a part of prenatal care and must continue throughout life to avoid nutrition related problems.

The Association supports programs within the education framework that promote understanding and facilitate informed decisions regarding proper nutrition including food and beverage choices.

The Association further believes school food service programs must be nutritionally sound, appealing, and affordable and that school food service programs be encouraged to use locally grown and produced food. A choice of nutritious food and beverages should be available during the school day and at school based functions. The Association also supports nutrition programs that are readily accessible and regulated by uniform standards. Considerations should be made for religious beliefs, cultural differences, and medical needs. (2010, 2011, 2013)

C-3. HEALTHY SCHOOL ENVIRONMENT

Vermont-NEA believes that included in every child's right to a good public education is the right to a safe and healthy environment for learning, including healthy indoor air quality. Further, educational facilities should be safe from environmental and chemical hazards. The Association understands that healthy children have a lower absentee rate and are more productive, and that the environment is a factor in overall good health. The Association will support policies that endeavor to assure public school buildings have a healthy indoor air quality be environmentally safe. (2008)

C-4. CHILDHOOD OBESITY

Vermont-NEA understands that obesity is a growing threat to our students' health. The Association supports health policies that include appropriate nutrition and fitness measures intended to combat obesity and promote healthy choices for our students. (2005)

C-5. HEALTH CARE FOR ALL CHILDREN

Vermont-NEA believes that every child should have direct and confidential access to comprehensive health care. The Association believes that such health care should be provided by properly licensed physicians and by other properly licensed health professionals. The Association urges its affiliates to support legislation to provide comprehensive health care to all children. (1995)

C-6. HIV/AIDS

Vermont-NEA recommends that educational institutions establish comprehensive HIV/AIDS education programs. These programs must include education about all means of transmission, including sex and intravenous (IV) drug use. Information on prevention options must include abstinence and medically accepted protective devices.

Furthermore, the Association believes that proper implementation of these programs requires employee training and input. The Association further believes that these programs should be presented by properly licensed/trained personnel. (1993, 1995)

C-7. SAFE AND ORDERLY SCHOOL COMMUNITIES

Vermont-NEA believes that all education employees, parents/guardians, students, school governing boards, and community members and agencies must work cooperatively to establish and maintain safe and orderly school communities. Students and education employees must be safe from physical, verbal, and psychological violence, the threat thereof, and all forms of harassment. There should be procedures to prevent and eliminate all types of harassment that might occur. Plans and procedures regarding discipline and/or harassment must include due process.

The Association further believes crisis plans must be developed at each school site by school personnel, administrators, students, parents/guardians, and emergency personnel. These crisis plans must be discussed with and practiced by all personnel and students at the school site. Crisis plans must be developed in conjunction with and provided to police and fire departments and other community agencies that might be called upon in a crisis situation. Parents/guardians must be made aware of the existence of these crisis plans.

The Association also believes that both schools and school districts must have written discipline plans and procedures that are fair, equitable, and consistently enforced and procedures for safe and orderly conduct at school activities and events. The Association believes that students must be taught

strategies and skills, including conflict resolution that develop respect, self-discipline, and self-control. Students must learn to distinguish between their own rights and responsibilities and the rights and responsibilities of others. There must be appropriate services and placement within regular education and alternative education programs and/or with state and/or community agencies for students who disrupt the learning environment or who are dangerous to other students, education employees, and themselves. The Association also believes that appropriate school behavior begins and should be reinforced in the home. Parents/guardians of children who are disruptive often need support and training in order to reduce negative behavior and increase student learning. Programs that provide assistance and training in child development, effective parenting skills, and strategies for dealing with disruptive students must be available for parent/guardians. Schools can be instrumental in identifying and recommending strategies that can assist parents/guardians.

The Association further believes that for these plans to be effective they must be practiced and updated on a regular and consistent basis. Education employees and members of the school community should receive ongoing training to address these issues. (2001, 2007, 2013)

C-8. PROTECTION OF CHILDREN

Vermont-NEA recognizes the need to protect the safety and well-being of all children from any form of abuse, exploitation, and abduction.

The Association also believes that parents/guardians, children, and education employees must become critical users of mass media, the Internet, and other products accessible to children through media literacy education. The Association further believes parents/guardians should be given guidance on how to monitor their children's use of technology.

The Association urges school districts to:

- A. Establish a system whereby the parents of absent children are notified immediately;
- B. conduct a voluntary fingerprinting of children in a non-threatening environment and give the completed fingerprint cards to parents and/or guardians;
- C. Cooperate with community organizations to increase public awareness of the problems of abuse, exploitation, and abduction;
- D. Utilize all available means to locate missing children.

E. Cooperate with community organizations to increase public awareness of the dangers of Internet use. The Association further urges legislative action be taken to implement these goals. (1988, 1992, 2006, 2013)

C-9. CHILD ABUSE

Vermont-NEA recognizes that teachers are in a key position to detect suspected cases of child abuse and are mandated to report them to the proper authorities. Teachers must have immunity from legal action in fulfilling this obligation. (1990, 1991, 1994)

C-10. SUBSTANCE ABUSE EDUCATION PROGRAMS

Vermont-NEA recommends that educational institutions establish comprehensive substance abuse education programs. These programs must include education about individual and societal problems which may result in physiological and psychological drug dependency. Substance abuse education should also include information about short and long term effects of alcohol, tobacco, and other drugs as they relate to the health, safety, and well-being of individuals.

C-11. STUDENT SEXUAL ORIENTATION

Vermont-NEA believes that all students, regardless of sexual orientation, gender identity or gender expression should be afforded equal opportunity and guaranteed a safe and inclusive environment within the public education system. The Association also believes that every school district and educational institution should provide counseling services and programs for students who are addressing issues of sexual orientation or gender identity expression. These services and programs shall be staffed by trained personnel. Education employees shall have access to resources and trainings to provide a supportive environment. (2003, 2012, 2013)

II. STUDENT RIGHTS AND CONCERNS

C-12. STUDENT BEHAVIOR STANDARDS

Vermont-NEA recognizes the need to develop a school wide system of student behavior standards that allows educators to teach and students to learn. Vermont-NEA urges each school district to establish a policy for student decorum which:

- a. Promotes a safe, orderly, and civil school environment where learning can take place;
- b. Has clear expectations for students regarding

continued...

behavior, language, clothing, and treatment of property; and

c. Places clear responsibilities on all members of the school community — educators, administrators, school board members, and parents, as well as students. Furthermore, Vermont-NEA believes the provisions of such a policy relating to members of each group should address:

- a. Their role in developing, enforcing, and/or complying with the decorum policy;
- b. The behavior expected of them;
- c. Their responsibility to model and promote high quality student behavior; and
- d. Their responsibility to hold students and others accountable for high standards of behavior. (1998)

C-13. CONFIDENTIALITY

Vermont-NEA believes personal information regarding students and their families is confidential. This information should be shared only with educational personnel and other caregivers who are currently involved in providing services to the student. (1993)

C-14. EARLY CHILDHOOD EDUCATION

Vermont-NEA believes that positive and comprehensive early childhood education is the basis for successful school and life experiences and believes that preschool through primary age children should receive sufficient financial and educational resources from the state.

Vermont-NEA supports the development of parent education, information, and training programs to provide assistance in meeting the basic needs of children so that, when they arrive at school, they are socially, intellectually and physically prepared.

Vermont-NEA encourages parents to demonstrate respect for their children's schooling by discussing with them school events on a daily basis, becoming involved through parent conferences, initiating contact with teachers about their children, and attending and participating in school activities, including school board meetings.

Vermont-NEA further believes that infant and early childhood programs should receive sufficient societal and financial support. (1998)

C-15. MIDDLE SCHOOL PROGRAMS

Vermont-NEA recognizes the special needs of the early adolescent. The Association encourages the development of middle school curriculum, guidance and counseling programs, health services, and preservice and professional development programs for these levels.

The Association believes this should be accomplished

through the establishment of middle school teacher preparation programs at accredited institutions of higher education and through middle school inservice programs. (1988)

C-16. HUMAN SEXUALITY EDUCATION

Vermont-NEA supports human sexuality education for all students including knowledge of all reproductive choices. (1991)

C-17. TIME TO LEARN

Vermont-NEA believes that time to learn is essential in promoting optimum achievement in school. The Association believes that student absences have adverse effects on program continuity and academic achievement.

Furthermore, excessive or unusual working hours, including high school start times before 8:00 AM, are detrimental to a student's attention span and academic achievement. The child labor laws, as structured by the Fair Labor Standards Act, must be monitored, enforced, and strengthened by local state, and national governing bodies. (1989, 1992, 2016)

C-18. USE OF INSTRUCTIONAL TIME

Vermont-NEA recognizes that increased demands on teachers' time for initiatives and non-instructional activities is having a negative impact upon instruction. The increasing numbers and frequent changes of local, state and federal initiatives are diminishing the time teachers can devote to enhance student learning. Therefore, Vermont-NEA urges each school district to adopt a policy and develop a formal plan to optimize the teaching time in the present school day. (1998)

C-19. STUDENT ATTENDANCE

Vermont-NEA recommends that each school district should adopt a class and school attendance policy which:

- a. excuses students from attending classes only for emergencies, illnesses, or pre-approved educational activities that present educational opportunities;
- b. assures that its social services enhance its educational services;
- c. requires school personnel, working with students on matters unrelated to their curricular and extracurricular program, to develop a schedule with all teachers involved with the student;
- d. urges educators to be sensitive in seeking to excuse students from the classes of other educators; and
- e. establishes specific plans for students whose unexcused absences from class exceed a specific number. (1998)

C-20. HOME SCHOOLING

Vermont-NEA believes that all children must have an equitable and quality education. The Association also believes that home schooling programs based on parental choice cannot provide the student with a comprehensive education experience. The Association strongly recommends that home education programs meet state requirements.

Furthermore, a school reserves the right to grant a diploma, or grade advancement only if an incoming home schooled student meets the requirements of that school. (1989, 2002, 2006)

C-21. HIV TESTING OF STUDENTS

Vermont-NEA opposes mandatory/involuntary HIV testing of students except where legally defined probable cause exists. (1988, 1990, 1992, 1993, 1995)

C-22. DRUG AND ALCOHOL TESTING OF STUDENTS

Vermont-NEA believes that mandatory drug and alcohol testing of students is an unwarranted and unconstitutional invasion of privacy and opposes such testing.

III. EQUAL ACCESS

C-23. JUVENILE CORRECTIONS

Vermont-NEA favors the maintaining of a Vermont juvenile correction facility.

The Association supports a full continuum of services for children convicted of (or at risk of) committing crimes. This continuum should include preventative and rehabilitative services, inter-agency collaboration, family support and intervention, school counseling services, and alternative education options.

The Association advocates options that provide a healthy educational environment conducive to positive change. (1988, 1990)

C-24. EDUCATION FOR ALL STUDENTS WITH DISABILITIES

Vermont-NEA supports a free appropriate public education for all students with disabilities. However, the Association recognizes that to implement Federal and State Law effectively:

- a. A favorable learning experience must be created both for all students;
- b. Educational employees, administrators, and parents must share in planning and implementing programs for students with disabilities;
- c. All staff must be adequately prepared for their roles through inservice training and retraining;
- d. All students must be adequately prepared for the

program;

e. The appropriateness of educational methods, materials, and support services must be determined in cooperation with classroom teachers;

f. The classroom teacher(s) must have an appeal procedure regarding the implementation of the program, especially in terms of student placement;

g. Modification must be made in class size, using a weighted formula, scheduling, and curriculum design to accommodate the demands of the program;

h. Adequate funding must be provided and then used exclusively for this program;

i. Adequate release time must be made available for teachers, so that they may carry out the increased demands upon them;

j. Individual educational programs should provide appropriate services for the students with disabilities and not be a criterion used for the evaluation of teachers;

k. A change in the State Department of Education's policy for distribution of federal aid to special education should be effected with financial support given to a greater variety of instructional approaches, thus making more options available to the local schools. (1987, 1990, 1992, 2012, 2013)

C-25. PLACEMENT OF STUDENTS WITH HIV/AIDS

Vermont-NEA supports a free, appropriate public education in a least-restrictive environment for all students with AIDS or infected with HIV.

The Association believes that the placement of children in school should be made on a case-by-case basis by a team composed of qualified health care professionals, school officials, representatives of the local Association, the child's physician, and the child's parent or guardian. (1988, 1990, 1992, 1993)

C-26. PASSIVE RESTRAINT

Vermont-NEA believes that the technique of passive restraint as a means of controlling the actions of a student is appropriate only when all other means of control have failed. The Association believes that this technique should be implemented by persons trained in its use. Vermont-NEA further believes this policy should include plans, developed with parental input, that will address not only the child's needs but also implementation of the policy. (1994) (1995)

C-27. GENDER EQUITY IN ATHLETIC PROGRAMS

Vermont-NEA believes that at all educational levels female and male students must have equal opportunity to participate in athletic programs.

continued...

The Association urges that athletic funds for facilities, equipment, and remuneration of staff be allocated equally between female and male programs. (2003)

D. PROMOTE PROFESSIONAL EXCELLENCE AMONG EDUCATORS

D-1. CLASS SIZE

Vermont-NEA believes that excellence in the classroom can best be attained by small class size, particularly in grades Pre-K-12, which allows for the optimum development of a student's potential.

The Association urges school districts to seek an optimum class size of 15 students.

The Association believes that class size maximums must be established based on the type of students, subject area content, and physical facilities.

The Association endorses the limitation of 10 students per class during labs or field activities in the hazardous occupational programs defined by the Department of Labor, Child Labor Bulletin 101. Furthermore, the Association should seek the implementation of a weighted class size formula to reflect the inclusion of students with disabilities.

The Association resists efforts to circumvent laws, regulations, and policies that mandate maximum class size and maximum teaching loads. (1992, 2013)

D-2. TEACHER PREPARATION: ENTRY

Vermont-NEA believes immediate steps should be taken to improve standards for entrance into the teaching profession through cooperative interactions with teacher training institutions. Entrance requirements should be rigorous, yet flexible enough to attract candidates who demonstrate the potential to become effective teachers.

The Association urges appropriate state agencies inform teacher preparation institutions of projected needs. Teacher preparation institutions should prepare prospective teachers in fields consistent with those needs. (1992)

D-3. TEACHER PREPARATION PROGRAMS: CONTENT

Vermont-NEA believes that a sound teacher preparation program must be equitably funded and must:

- a. Involve practicing Pre-K-12 teachers in the design, implementation, evaluation, and systematic change of the program;
- b. Require a bachelor of arts or science degree from an accredited college or university, which shall be in a field of concentration other than education;
- c. Include required courses in the liberal arts, subject

or grade level specialty, reading, writing, research and information skills, and professional studies;

- d. Include training in student assessment, classroom management, discipline, group processes, the dynamics of intergroup communications, human growth and development, the changing role of the family, exceptional behaviors, human relations, and multicultural education.

- e. Include a variety of field experiences culminating in a one-year paid internship. (1992) (1998) (2000)

D-4. TEACHER PREPARATION PROGRAMS: STUDENT TEACHING

Vermont-NEA believes that student teachers should be provided with legal status and liability protection.

The Association believes that supervising or cooperating classroom teachers should be compensated monetarily and by reduced teaching assignments and responsibilities. The recommendation of the supervising or cooperating classroom teacher should weigh heavily in the decision regarding readiness to enter the teaching profession.

Vermont-NEA further believes that the acceptance of student teachers should be on a voluntary basis.

Vermont-NEA also encourages students to join the Association. (1992) (1999)

D-5. TEACHER PREPARATION PROGRAMS: PROFESSIONAL PARTICIPATION

Vermont-NEA urges licensed educators with teaching experience to become involved in college and university committees that control teacher education programs.

The Association supports placing these teachers in decision making roles in departments of education, and sharing in the responsibility for practicum experience with the public schools and teacher preparation institutions. (1992) (1999)

D-6. TEACHER INDUCTION

Vermont-NEA believes that teacher induction is a process that facilitates the transition of new teachers into the profession and provides a system of collegial support for veteran teachers experiencing a change in grade level, type of assignments, site, or cultural environment. The Association also believes that an effective induction process is based upon exemplary teaching practices, an understanding of adult and student learning, and a professional environment that supports collaboration and inquiry.

The Association further believes that the induction process enhances teaching skills and promotes professional development. The induction process for

new teachers must be mandatory, be at least one year in duration, and include a mentoring program. The induction process for veteran teachers must be flexible and provide support based upon changes in their professional assignments.

The Association encourages its affiliates to be involved in the development of standards for teacher induction and the design and implementation process. (2000)

D-7. HIRING POLICIES AND PRACTICES

Vermont NEA believes that, to provide the highest quality of education to all students, hiring practice must ensure that all education employee positions be filled with highly qualified professionals. The Association also believes that the hiring policies and practices must be nondiscriminatory and include provisions for the recruitment of a diverse educational staff. (2010)

D-8. PROBATIONARY PERIOD FOR NEWLY LICENSED TEACHERS

Vermont-NEA believes in the establishment of a two-year period of probation for newly licensed teachers. It should include the following characteristics:

- a. Successful completion is affirmed by the local superintendent (or school board, if there is no superintendent);
- b. A qualified individual will provide formal evaluations to the teacher;
- c. An employing school district which has complied with its responsibilities to provide the teacher formal evaluations and required notice may, without being required to provide statutory hearing, decide for performance reasons not to renew the teacher's contract; and
- d. A teacher who, for alleged performance reasons, does not successfully complete an initial two-year period, may extend probation for one additional two-year period, during which he or she is subject again to the requirements of a teacher with an initial probationary license. (1998, 2013)

D-9. MENTOR PROGRAMS

Vermont-NEA believes that mentor programs enhance the professional expertise of employees. The Association also believes that the planning, implementation and evaluation of such programs must be negotiated or cooperatively developed and maintained by the school district and the local affiliate. The Association further believes that the duties and responsibilities of all parties must be clearly defined and uniformly administered. Mentors must be selected through a defined process with articulated criteria, be properly trained and compensated, and be provided

with adequate time to fulfill their responsibilities. The state or local authority has the obligation to provide hold-harmless protection.

The Association believes that any documentation that results from the mentoring process must be confidential and the property of the mentee and mentor and must not be included in the personnel files. (2000, 2013)

D-10. CONTINUING EDUCATION

Vermont-NEA recognizes the need for continuing education in the career-long development of educators. All teachers should acquire a masters degree, or its equivalent in additional course work (except where industry standards apply), within 7 years of receiving a permanent license. The Association believes that federal and state governments, as well as local school systems, have a responsibility to fund expenses for continuing education programs, courses, conferences, and degrees which benefit the professional development of all staff.

The Association encourages its affiliates to develop strategies for the implementation of educator-governed professional development programs. These programs must reflect the needs of local educators and students; therefore, educators must have the decisive voice at every stage of planning, implementation, and evaluation. Local professional development committees should develop and oversee professional development programs, which:

- a. Extend over 5-year periods;
- b. Are offered at times which do not conflict with or overlap ongoing professional duties;
- c. Reflect the priorities and curriculum developed by the school district;
- d. Encourage ongoing and open critical analysis of them by district staff; and
- e. Provide incentives to teachers and support staff to engage in those professional development activities which assist the district in the attainment of its educational goals.

The Association supports increased federal funding and the appropriation of state and local funds to ensure the existence of teacher centers in sufficient numbers to serve all the educators of Vermont. (1992, 1994, 1998, 1999)

D-11. ACCOUNTABILITY AND ASSESSMENT

Vermont-NEA believes in accountability. The Association believes that school employees can be accountable only to the degree that they share responsibility in educational decision-making

continued...

and to the degree that other parties who share this responsibility — legislators, other government officials, school boards, administrators, parents, students, and taxpayers — are also held accountable.

Vermont-NEA believes there should be no single local, regional, or statewide assessment system. The Association will resist any attempt to transform assessment results into a state testing program that would seek to measure all students, teachers, or school systems by a single standard. (1988, 1990, 1991)

D-12. TEACHER COMPETENCY TESTING

Vermont-NEA believes that competency testing must not be used as a condition of employment, relicensing, evaluation, placement, ranking, or promotion of licensed teachers. The Association also opposes the use of student progress, standardized achievement test, or student assessment tests for purposes of teacher evaluation. (1988)

D-13. PEER ASSISTANCE PROGRAMS

Vermont-NEA supports non-evaluative peer assistance programs that provide assistance for the purpose of improving professional practices and retaining promising educational employees. The Association also believes a peer assistance program must be developed through the collective bargaining process. (2001, 2002)

D-14. EVALUATION OF EDUCATIONAL EMPLOYEES

Vermont-NEA advocates a formal evaluation system for every educational employee in every local school district because consistent evaluations of on-the-job performance are the only appropriate way to assess and assure the competency of practicing educational employees.

An effective evaluation procedure, supported by well-developed, continued professional growth programs, will enable all educational employees to keep abreast of developments in their area of specialization and to continue professional growth. Such procedures also can identify educational employees with instructional deficiencies and provide them with remedial options, counseling, sufficient resources, and opportunities to observe other educational employees. Regular assessment and supportive resources will ensure that those who continue in this capacity are competent. If, after an evaluation process that follows all the above provisions of this resolution, and if, after being given sufficient time and opportunity for improvement, an educational employee is formally re-evaluated and there is documentation of incompetence, dismissal proceedings with guaranteed due process should be instituted. Therefore, it is essential that

administrators and/or mutually agreed upon evaluators be properly trained and held accountable for the implementation of appropriate and fair evaluation systems.

A school district's evaluation procedure will be developed and maintained in conjunction with representatives selected by the local Association and will include:

- a. Clear performance expectations;
 - b. Regular observation of classroom performance, with advance notice and discussion of evaluation visits and a timely consultation after each visit;
 - c. A written evaluation report provided to the educational employee;
 - d. Opportunity for a written response prior to the placement of the evaluation in the personnel file.
- Participation in an evaluation process shall not waive an educational employee's right to due process in any subsequent contractual or legal proceeding.

The Association believes that procedures for evaluation of administrators should include evaluations by school employees within their direct supervision. (1992, 1994, 2000)

D-15. PROFESSIONAL DEVELOPMENT FOR TEACHERS AND ADMINISTRATORS

Vermont-NEA believes that continuous professional development is required for teachers and administrators to achieve and maintain the highest standards of student learning and professional practice. The Association also believes that professional development should:

- a. Be based upon clearly articulated goals;
- b. Be designed and directed by the affected professionals at each site;
- c. Assist teachers in meeting the needs of students;
- d. Be incorporated into the teaching profession as an essential component of the work schedule;
- e. Provide training for the implementation of new and expanded programs;
- f. Provide time for inquiry, research, reflection, and collaboration;
- g. Provide opportunities for mentoring with colleagues;
- h. Be standards referenced and incorporate the best principles of teaching and learning;
- i. Be career long, rigorous, and sustained;
- j. Stimulate intellectual development and leadership capacity;
- k. Balance individual priorities with the needs of the school and the district;
- l. Provide a depth of subject matter knowledge and a greater understanding of learning styles;
- m. Provide opportunities to apply new learnings and

- changes in practice;
- n. Provide opportunities to assume new roles, including leadership positions;
- o. Include an ongoing assessment and evaluation component to determine effectiveness;
- p. Provide flexibility for the use of a variety of resources such as university-school partnerships, professional development schools, exchange programs, professional development resource centers, and cultural and business resources.

The Association also believes that administrators and staff are partners in the total school program. The administrators must maintain valid administrator licenses and have annual teaching experience. Areas of training should include participatory decision-making, interpersonal skills, personnel selection, staff evaluation, curriculum, and school management techniques. (1988, 2000)

D16. PROFESSIONAL DEVELOPMENT TO ADDRESS THE NEEDS OF UNDERREPRESENTED GROUPS

As the demographics of our country and state change, it is essential that educators keep pace and stay aware of the challenges and special needs faced by underrepresented groups. Vermont-NEA recommends that all teachers and educational support professionals should receive regular, ongoing training opportunities focusing on best practices to address the needs of students from underrepresented groups. (2005, 2012)

D-17. PROFESSIONAL DEVELOPMENT FOR EDUCATIONAL SUPPORT PROFESSIONALS

Vermont-NEA believes that professional development should be required throughout the career of educational support professionals. Professional development programs should provide equal opportunities for these employees to gain and improve knowledge and skills important to their position and job performance. Professional development programs should assure that appropriate education employees have a decisive voice at every stage of planning, implementation, and evaluation.

The Association also believes that time for preservice and inservice training should be provided. The Association further believes that any mandated training/requirements be fully funded by the mandating authority. (2000, 2004)

D-18. CONSULTANTS IN THE DEPARTMENT OF EDUCATION

Vermont-NEA supports the full staffing and full funding of the State Department of Education to attract and

keep professional consultants in all positions.

D-19. PROMOTE THE RETENTION OF EXPERIENCED EDUCATORS

Vermont-NEA believes that experienced educators are valuable resources in the promotion of educational excellence. The Association also believes that our experienced members should be encouraged to remain in the education profession and that such members should be appropriately compensated through the negotiations process. (2003)

E. GAIN RECOGNITION OF THE BASIC IMPORTANCE OF THE TEACHER IN THE LEARNING PROCESS AND OTHER EMPLOYEES IN THE EDUCATIONAL EFFORT

E-1. IMPROVEMENT OF INSTRUCTION

Vermont-NEA believes that a prime responsibility of professional associations is to stimulate significant improvements in the quality of instruction. Much of the responsibility to make educational changes lies with the teachers through their influence and involvement in democratic decision-making, in and out of school. Local school systems shall be urged to provide classroom teachers with support staff to free the teacher from nonteaching duties. Support staff may be either paraprofessionals or auxiliary personnel. (1988, 1989)

E-2. SCHOOL RESTRUCTURING

Vermont-NEA believes in school restructuring that is flexible, locally defined, and responsive to the needs and interests of teachers, students, and the broader educational community.

The Association believes in a school restructuring process which ensures teachers share in leadership, authority, and governance. (1992)

E-3. FREEDOM OF CHOICE IN READING

Vermont-NEA strongly supports the right to read and believes that licensed professionals within the school are best equipped to choose material to be used in the classroom or to be available in the school library. In instances where a move toward censorship occurs, a review procedure, similar to that of the American Library Association, should be implemented. (1988)

E-4. VOLUNTEERS

Vermont-NEA recognizes and encourages business and community involvement through volunteerism. However, the work performed by volunteers shall not

continued...

result in any violation of the applicable bargaining unit agreement nor jeopardize any educational employee's position. Vermont-NEA encourages school districts to require a formal application process, which may include a background check, for all volunteers. (1990, 1993, 1994, 2012)

F. PROTECT THE RIGHTS OF EDUCATIONAL EMPLOYEES AND ADVANCE THEIR INTEREST AND WELFARE

I. PROTECTION OF EMPLOYEES

F-1. PROTECTION OF EDUCATORS

Vermont-NEA shall insist upon development and enforcement of laws, regulations, policies, and procedures that guarantee the safety of educators and other school personnel from verbal and physical attacks on their persons or property. The Association further believes that when school personnel are victims of physical attack, verbal abuse, theft, vandalism, bullying, or harassment, they should receive full support of their employer in pursuing legal and other remedies as well as receiving reimbursement for their personal and property loss. Time lost due to injuries from attacks should not be deducted from accumulated sick leave. (1994, 1995, 2007, 2013)

F-2. EMPLOYEE RIGHTS PENDING COURT ACTIONS

Vermont-NEA believes when criminal charges or civil lawsuits are filed against a school employee, the right of due process must be guaranteed. If an employee is removed from student contact or suspended from a position due to pending court action, all employment rights of the employee shall remain in force, including full compensation and job security. The Association urges its locals to negotiate contract provisions covering procedures to be followed until final disposition of the case. (1993)

F-3. DRUG AND ALCOHOL TESTING OF EMPLOYEES AND JOB APPLICANTS

Vermont-NEA believes that mandatory drug and alcohol testing of employees and job applicants is an unwarranted and unconstitutional invasion of privacy and opposes such testing. (1991)

F-4. CONFIDENTIALITY

Vermont-NEA supports professionalism in the educational environment. The Association believes that the rights to confidentiality of all educational employees should be respected by the educational community. (1994)

F-5. DUTIES IN EMERGENCY SITUATIONS

Vermont-NEA believes that in emergency situations the duty of education employees is to remain with students and comply with established emergency procedures. The Association believes that requests by the administration, even on a voluntary basis, for education employees to serve on search squads and the like are construed as clearly outside normal duties. Vermont-NEA urges local Associations to become aware of existing local guidelines, and, in the absence of such, to participate in the immediate development of a written procedure. (2013)

F-6. TRANSPORTATION

Vermont-NEA urges local school systems to provide and to incur the expense of transportation liability insurance for education employees who are requested or required to transport students by private vehicle for any school related function. (2013)

F-7. LICENSED PARAPROFESSIONALS

Vermont-NEA believes paraprofessionals holding teacher licenses who are assigned professional duties should receive professional salaries during the time they are performing these duties. The Association urges local affiliates to oppose efforts by school boards to use the employment of paraprofessionals in replacing professionals or increasing class size. (1991, 1992, 1993)

F-8. ASSIGNMENT OF SUBSTITUTES

Vermont-NEA believes in the importance of employing professional educators to fulfill the critical role of substitute teachers. The Association also believes that substitute teachers perform a vital function in the maintenance and continuity of daily education. The Association condemns the practice of assigning substitute teachers to regular positions. Such positions should be filled by available licensed teachers who are eligible to be placed on contractual status by the school district. The Association opposes the practice of replacing absent teachers by dispersing students to other classrooms. The Association also opposes the use of individuals such as educational support professionals, part-time employees, or employees hired through private agencies to cover classes. The Association further opposes requiring teachers to substitute during their preparation time. The Association condemns the practice of utilizing licensed teachers to substitute for personnel on extended leave without providing full pay for the substitutes. (1988, 1992, 2002)

F-9. EDUCATION EMPLOYEES AND ACTIVE DUTY SERVICE

Vermont-NEA believes that an education employee whose career is interrupted by a call to active duty service by the National Guard or the reserves should be guaranteed reemployment and all benefits that would have accrued if the employee had continued in a position with the school system. (2002)

F-10. HIV TESTING OF EMPLOYEES

Vermont-NEA opposes mandatory/involuntary testing of school employees for HIV. (1988, 1990, 1991, 1992, 1993, 1994, 1995)

F-11. EMPLOYEES WITH HIV/AIDS

Vermont-NEA believes that educational employees shall not be fired, nonrenewed, suspended (with or without pay), transferred, or subjected to any other adverse employment action solely because they have tested positive for HIV antibody or have been diagnosed as having AIDS or AIDS-Related Complex (ARC). (1988, 1990, 1992, 1993, 1994, 1995)

II. CONTRACT ISSUES

F-12. EDUCATIONAL SUPPORT PROFESSIONALS

Vermont-NEA believes that greater emphasis must be placed upon securing and maintaining the most capable educational support professionals. The Association recognizes that educational support professionals share the same community interest with the professional staff. The Association urges that salaries and benefits for educational support professionals be competitive with those similar positions in private industry and business within the geographic area. Furthermore, the Association believes that paraprofessionals should be licensed and urges teachers to become involved in the orientation and training of paraprofessionals and other educational support professionals. (1991, 1992, 1993)

F-13. UNIFORM PAY STRUCTURE

Vermont-NEA and its affiliates believe that school employees should be adequately compensated by a uniform pay structure as bargained with local school districts. The Association opposes "merit pay" or any other compensation plan based on preferential, subjective, or politically motivated criteria.

F-14. TEACHER COMPENSATION

Vermont-NEA believes that teacher salary schedules should provide for entry-level salaries and career

earnings comparable to those of other professions with similar preparation and responsibilities and be structured to provide compensation levels that encourage classroom teachers to remain in the classroom.

The Association further believes that assistance and guidance should be provided to local affiliates in dealing with teacher compensation systems.

Therefore, the Association urges local affiliates to proceed as follows in the pursuit of agreements concerning compensation:

- a. Avoid proposing pay-for-performance systems and prevent the adoption of pay-for-performance systems if they are proposed by school districts, state legislatures, or other governmental entities;
- b. Exclude the use of supervisor evaluations and student testing as bases for evaluating teacher performance - if school districts, legislatures, or other governmental entities intend to adopt pay-for-performance systems;
- c. Attempt to have pay-for-performance systems rescinded or amended if already adopted;
- d. Oppose the provision of additional compensation to attract and retain educational employees in hard-to-recruit positions. (2001)

F-15. REDUCTION IN FORCE

Vermont-NEA urges its affiliates to negotiate in master contracts criteria to be utilized should reduction in force occur. Criteria should include seniority, objectivity, nondiscrimination, uniformity of application, and affirmative action.

F-16. BINDING ARBITRATION

Vermont-NEA supports the use of mandatory binding interest arbitration for final settlement of contract disputes between local Associations and school boards if the parties cannot mutually resolve their differing positions within the legally mandated time limits. Furthermore, the Association believes that mandatory binding interest arbitration should replace the legal right of teachers to strike only if the right of school boards to impose terms and conditions of employment is eliminated. (1996)

F-17. STAFF WELLNESS

Vermont-NEA believes that the physical, emotional, and mental health of staff has an impact on performance, students, and associates. The Association urges school districts to promote an awareness of wellness among all personnel and establish programs for the development and maintenance of positive health habits.

continued...

Vermont-NEA advocates Employee Assistance Programs as a voluntary resource that would assist school employees who are experiencing significant professional or personal problems. These programs would provide confidential, professional counseling leading to improved health and job effectiveness. (1989,1990)

F-18. HEALTHY WORK ENVIRONMENT

Vermont-NEA believes that education employees have the right to a work environment that includes healthy indoor air quality and is safe from environmental and chemical hazards. The Association understands that healthy employees have a lower absentee rate and are more productive, and that the environment is a factor in overall good health.

The Association also believes in the establishment and enforcement of standards of the Occupational Safety and Health Administration (OSHA) to ensure health and safety, as well as the ongoing training and certification of education employees who work in potentially hazardous situations. Additional health hazards should not be created when facilities are altered or repaired. The Association further believes that OSHA standards must be posted. The Associates believes education employees and the public must be notified in a timely manner of actual and potential hazards. (2008)

F-19 SAFE WORKING CONDITIONS

Vermont-NEA believes that included in every child's right to a good public education is the right to a safe environment for learning. Vermont-NEA also believes that every educator has the same right to safe working conditions. The Association understands that school safety includes secure entrances/exits, safety policies and protocols that are followed consistently, and efficient communication throughout the building/district. The Association will support policies that endeavor to assure safe public school buildings. (2013)

F-20. BASIC CONTRACT STANDARDS

Vermont-NEA and its affiliates believe that school employee/school board collective bargaining agreements should contain certain standard contractual concepts. Therefore, Vermont-NEA and its affiliates will pursue agreements which provide for the following concepts:

- a. A grievance procedure that terminates with final and binding arbitration;
- b. All discipline, including suspension, dismissal and nonrenewal, subject to due process and just cause through final and binding arbitration;
- c. Contractually defined procedures that provide for a published seniority list and layoff and recall based on

- seniority as bargaining unit members and licensure;
- d. Employer-paid fringe benefits that fully cover bargaining unit members and their families;
- e. Employer-paid insurance packages which incorporate the benefits of wellness care including comprehensive health, life and dental insurance, and employee assistance programs;
- f. Membership in the Association or the payment of a service fee as a condition of employment;
- g. Required posting of all vacant or newly created positions along with binding rights based upon seniority and licensure where licensure is applicable;
- h. Preparation and planning time for all members of the bargaining unit at a minimum of 45 consecutive minutes within each school day; also, schedules should enable teachers to interact during the course of the school day, through such mechanisms as shared preparation periods;
- i. Enforceable class size and teaching load maximums, specifically a class size of 15 or fewer children;
- j. Duty-free lunch periods for all members of the bargaining unit;
- k. Income protection for long-term illnesses and disabilities;
- l. Nondiscriminatory, fair, and equitable treatment of bargaining unit members with regard to their gender, sexual orientation, race, creed, religion, residence, physical characteristics, handicap, age, marital status, or grade/subject taught;
- m. Contractually defined evaluation procedures;
- n. Any school employee disabled by pregnancy entitled to all contract benefits available to school employees for other causes and illnesses;
- o. Paid parental/child rearing leave for males or females to provide care for natural or adopted children;
- p. Release time for Association business with full pay and fringe benefits;
- q. Contractually defined procedures for ensuring school employee decision-making in curriculum design and related instructional areas as well as instructional management and reporting systems;
- r. Salary schedules based upon preparation, professional growth, and length of service;
- s. All extracurricular and extra duty assignments to be filled on a voluntary basis with provision for adequate compensation for school employees who accept such assignments;
- t. The recognized bargaining unit to include continuing education teachers, part-time teachers, school nurses, school social workers, librarians, school psychologists, counselors, department heads, vocational education teachers, teachers of extracurricular activities, therapists, and other professional special education

personnel as well as regular classroom teachers, and all other nonsupervisory school employees of the school district;

u. A provision for fair and equitable treatment of all bargaining unit members;

v. A provision which assures that work performed by members of the bargaining unit shall not be contracted out or performed by temporary workers.

w. Placement of newly appointed faculty on step according to their teaching experience, with full credit on salary scale for previous experience;

x. Part-time faculty, working half time or more, shall advance on the salary schedule a full step each year. They shall receive the same salary and fringe benefits as full-time faculty, pro-rated according to the work load.

Vermont-NEA and its affiliates further believe that school employee/school board collective bargaining agreements should define the salaries, hours, and other terms and conditions of employment of educational employees. Such agreements should not include provisions which restrict or demean the dignity of school employees. Therefore, Vermont-NEA and its affiliates will resist agreements which provide the following concepts:

a. A so-called "penalty" or liquidated damage clause that deprives a school employee of employment mobility or compensation earned for services provided;

b. Merit pay or any other compensation scheme which substitutes preferential, subjectively granted, or politically vulnerable salaries for services rendered. (1988, 1989), 1992, 1998, 1999, 2000, 2003)

III. RETIREMENT AND SOCIAL SECURITY

F-21. RETIREMENT

Vermont-NEA shall provide leadership to ensure that the State Teachers' Retirement System should:

a. Be soundly financed, professionally managed, and responsively administered, with social responsibility;

b. Include retirement benefits that accrue at the rate of 2.0 percent for each year of service credit, of a teacher's mean salary of the highest three years, with full benefits to be realized after twenty-five years of service.

c. Include a legal minimum average compensation to be determined and established annually as the current teacher average salary for the State of Vermont. Upon normal retirement, no teacher will receive less than one-half of the legal minimum average compensation, subject to the normal discounts for early retirement;

d. Include automatic and realistic benefit increments to reflect increases in the cost of living;

e. Include comprehensive and meaningful disability and survivor benefits;

f. Provide a health insurance benefit for retired teachers and their spouses/domestic partners that is at least comparable to the health insurance benefit currently provided to retired state employees.

g. Provide for full vesting at the age of 55 or after five years of service;

h. Provide for early retirement benefits after the completion of five years of service and the attainment of fifty-five years of age;

i. Include a provision for service credit for those teachers who chose not to join the retirement system until required to do so;

j. Include a provision for service credit to educators with service in post-secondary educational institutions;

k. Provide for a pre-tax savings plan toward which teachers may contribute and whose contributions will be matched by the employer and the state. Retiring teachers who are not eligible for Medicare benefits due to their age at retirement will be able to remain in the school district's health insurance plan. Until the retiree is eligible for social security and Medicare benefits, school districts will be encouraged to pay for these premiums. (1989, 1990, 1992, 2001)

IV. ASSOCIATION ISSUES FOR EMPLOYEE WELFARE

F-22. STAFF MERGERS

Vermont-NEA supports and encourages the merging of teacher and educational support personnel units. (1992)

F-23. PROFESSIONAL RESOURCES

Vermont-NEA believes in professionalism among its members. To that end, the Association encourages its members to become as informed as possible on educational issues.

Vermont-NEA further believes that one of its functions as a professional organization is to serve as an educational issues resource center for its members. (1994)

F-24. REGIONAL TRAINING

Vermont-NEA strongly supports regional training in Association skills for its members. (1988)

F-25. REGIONAL BARGAINING

Vermont-NEA strongly supports regional bargaining and regional consolidation of locals as the direction to be followed in collective bargaining, with the ultimate

objective to be coordinated contract bargaining consistent with current collective bargaining laws. The Association believes that active participation by local affiliates in the Regional Bargaining Councils will improve the economic status of Vermont educators. (1994)

F-26. UNIFORM SCHOOL CALENDAR

Vermont-NEA supports legislation that allows negotiation between Vermont-NEA and the Vermont Superintendents' Association and the Vermont Department of Education to develop a uniform school calendar.

Until a uniform calendar can be developed in this manner, Vermont-NEA supports the efforts of Regional Bargaining Councils to propose and negotiate regional calendars. (1988, 1995)

F-27. SUMMER SCHOOL AND MODIFIED CALENDARS

Vermont-NEA believes that affected local affiliates must participate fully in the design, authorization, implementation, evaluation, and continuation of summer school, the extended school year, year-round schools, and/or a modified calendar. Governing policies must take into consideration the impact on the community and be in accordance with the Association's principles for professional salaries and class size. Employment in summer school or other school programs outside the contracted days must be on a voluntary basis. (1995)

F-28. UNISERV COUNCILS

Vermont-NEA encourages participation in UniServ Councils. Such councils provide an opportunity for all locals within their UniServ districts to meet, share ideas, solve problems, and set the direction for their districts.

F-29. VERMONT-NEA MEETINGS

Vermont-NEA shall not hold its Representative Assembly or state wide conferences in any city or town where a local affiliate is on strike at the time of the event. When Vermont-NEA is required to schedule events off-site, Vermont-NEA will not cross any picket line of another union. Vermont-NEA will not schedule off-site events at businesses that oppose the right of its employees to organize. (2012)

G. SECURE PROFESSIONAL AUTONOMY

G-1. LICENSURE

Vermont-NEA advocates rigorous state standards for entry into the teaching profession. These standards

shall include above-average college grades, field training experience that includes successful completion of student teaching, and demonstration of proficiency on appropriate pedagogical and subject matter tests. Tests should be valid and unbiased and should be included as one element of comprehensive assessment for completion of a teacher preparation program as well as for licensure into the profession.

The Association believes that licensing standards must assure that individuals wishing to enter the teaching profession have the following qualifications:

- a. A bachelor of arts or science degree from an accredited college or university, which shall be in a field of concentration other than education;
- b. Undergraduate or graduate training in pedagogy and child development and psychology;
- c. Successful completion of a student teaching internship experience or its equivalent at least one school year in duration; and
- d. A passing score, established by the Vermont Standards Board for Professional Educators, on a teacher examination defined by the national certification agency or board for other education professionals such as speech-language pathologists or school nurses.

The Association asserts that a teaching license should signify that an individual entering the teaching profession is competent to teach. A teaching license must be legally recognized as the primary requirement for employment in every public and private school (Pre-K-12). No license should be issued unless an individual possesses the entry-level knowledge and skills required for teaching. No temporary or emergency licenses should be issued. No assignments should be permitted outside the teacher's area of licensure without appropriate concurrent retraining supported by the local district. Revocation of a teaching license must be for just cause and consistent with an equitable due process procedure.

The Association supports regulations that would put licensed educators with teaching experience in decision-making roles in licensing agencies.

The Association believes that all substitutes employed in the State of Vermont should be licensed to teach in Vermont. Beyond fifteen days in one level of assignment, a substitute should be licensed and endorsed in that area.

e. Vermont-NEA believes that teacher and administrative licensure should establish that an individual is qualified to practice. Re-licensure ensures that an individual remains qualified throughout their career. Supervision and evaluation should be evidenced-based and locally negotiated, and should not

be addressed by statewide elected or appointed bodies (1988, 1998, 1999, 2000, 2016)

G-2. PROFESSIONAL STANDARDS BOARD

Vermont-NEA believes that the profession must govern itself. The Association also believes that each state should have a professional standards board, composed of a majority of practicing public school teachers. Professional standards boards should have exclusive authority to license and to determine criteria for how a state certificate will be recognized for professional educators. Further, these boards should have the exclusive authority to establish the standards regarding licensure, including procedures for suspension and revocation. The Association opposes legislation that compromises the authority of state standards boards and urges the elimination of state statutes that conflict with this authority. (1995)

G-3. NEW AND EMERGING LICENSURE

Vermont-NEA recognizes that education is ever changing. Licensure requirements must be clarified and delineated to keep pace with developing educational initiatives. The Association believes that it is the duty and responsibility of the Professional Standards Board to redefine these licensure requirements. (1996)

G-4. NATIONAL CERTIFICATION

Vermont-NEA supports voluntary national certification by which the profession grants recognition to an individual who has met qualifications specified by the profession. The Association recognizes that this function is filled by the National Board for Professional Teaching Standards (NBPTS), which is composed of a majority of practicing public school teachers. The National Board for Professional Teaching Standards establishes appropriate assessment procedures by which individuals demonstrate exemplary practice in pedagogy and in subject matter areas, issues certificates to all individuals who meet NBPTS-established standards, maintains a roster of those who have been certificated, and encourages reciprocity with state professional standards boards. The Association also supports the periodic evaluation of such certification procedures to ascertain whether cultural, economic, gender, racial, or age bias is perpetuated by the requirements for certification. (2000)

H. UNITE EDUCATIONAL EMPLOYEES FOR EFFECTIVE CITIZENSHIP

H-1. ACTIVE PARTICIPATION IN PUBLIC POLICYMAKING

Vermont-NEA believes that every educator has the right and obligation to be an informed and politically active person.

The Association urges educators to register and vote, participate in party organizations, discuss political issues publicly, campaign for candidates, contribute to campaigns of candidates, lobby, organize political action groups, and run for and serve in public office without curtailment of annual increments, tenure, retirement, or seniority rights.

Major decisions affecting public schools are made by elected officials or their appointees. Therefore, the Association believes that it is the duty and responsibility of educators to involve themselves in the selection, election, and reelection of qualified committed candidates who support goals that provide quality education.

I. PROMOTE AND PROTECT HUMAN AND CIVIL RIGHTS

I-1. CIVIL RIGHTS

Vermont-NEA is committed to the achievement of a totally integrated society and calls for the elimination of barriers of race, color, national origin, religion, gender, sexual orientation, age, disability, size, marital status, and economic status which prevent individuals from exercising their rights including liberties decreed in common law, the Constitution, and statutes of the State of Vermont and the United States. (1993)

I-2. THE RIGHT TO ORGANIZE

Vermont-NEA believes that all people have the right to organize in order to achieve an improvement of their living conditions through their own free and independent unions and organizations. The Association urges that this right be advocated where it is now abused or denied and strengthened where it is now secured.

The Association deplores the anti-union activities by business interests, school districts, and government agencies, including efforts that attempt to destroy and undermine labor unions and organizations, penalize members for union involvement, and deprive workers of their right to organize and bargain. (2002)

I-3. SEX DISCRIMINATION AND EQUAL RIGHTS

Vermont-NEA urges the full compliance of Title IX of the Educational Amendment of 1972. The Association urges that the Equal Rights Amendment be passed as soon as feasible.

I-4. COMPREHENSIVE HEALTH CARE

Vermont-NEA believes that access to comprehensive health care is a right of every citizen and urges the State of Vermont to implement a comprehensive health care plan. (1990, 2003, 2010)

I-5. COMPREHENSIVE HEALTH CARE POLICY

Vermont-NEA believes that affordable, comprehensive health care is the right of every resident.

The Association supports the adoption of a universal health care plan for all residents of Vermont.

The Association will support health care reform measures that move Vermont closer to this goal and that achieve universal coverage, control costs while assuring quality, emphasize prevention of health care problems, and are financed by means that assure greater equity in the funding of that health care.

The Association also believes that if a single-payer health care plan is adopted; no cuts in Medicare/Medicaid benefit levels or in funding of those programs should be made. (2003, 2010)

I-6. PEOPLE LIVING WITH HIV/AIDS

Vermont-NEA believes people living with HIV/AIDS should be ensured fair and equitable treatment in our communities, allowing equal access to education, employment, living conditions, and all rights guaranteed by law. (1994)

I-7. BULLYING

Vermont-NEA believes that bullying is a form of abuse. Students and education employees must be guaranteed a safe environment that protects them from bullying. Therefore, the Association urges local affiliates to work with educational institutions to:

- a. Establish strong policies defining and prohibiting bullying;
- b. Develop and institute programs designed to help students and education employees recognize, understand, prevent, combat, and eliminate bullying.
- c. Develop and implement a procedure that encourages the reporting of bullying incidents, provides due process, ensures prompt resolution of such incidents, and protects the rights of all parties;
- d. Provide counseling services for all parties involved. (2004)

I-8. SEXUAL HARASSMENT

Vermont-NEA believes that sexual harassment of anyone on the basis of gender and/or sexual orientation, preferences or practices is a form of sex

discrimination and abuse.

The Association further believes that educational employees and students should be protected from sexual harassment. The Association encourages its locals to work with educational institutions to:

- a. Establish strong policies defining and prohibiting sexual harassment;
- b. Develop and institute educational programs designed to help people recognize, understand, prevent, combat and eliminate sexual harassment;
- c. Develop and publicize a grievance procedure that encourages the reporting of incidents of sexual harassment, resolves complaints promptly, and protects the rights of all parties.

Vermont-NEA also believes that counseling services must be provided for all parties involved in sexual harassment cases. (1994, 1999)

I-9. SEXUAL ASSAULT

Vermont-NEA supports efforts that will prevent and protect all individuals from becoming victims of sexual assault, including assault on the basis of gender and/or sexual orientation, preferences or practices.

The Association encourages its locals to work with educational institutions to develop and institute educational programs designed to help people recognize, understand, prevent, combat, and eliminate sexual assault.

The Association believes that counseling services must be provided for students and school personnel who are victims of sexual assault. The Association further believes that when school personnel are the victims of sexual assault, they should receive the full support of their employer in pursuing legal and other remedies. (1994, 1999)

I-10. FAMILY PLANNING

Vermont-NEA supports family planning, including the right to reproductive freedom. (1990)

I-11. NUCLEAR WEAPONRY

Vermont-NEA recognizes that federal spending for nuclear weaponry is being increased while funds for education and other social services are being cut. The Association supports a mutually verifiable freeze on nuclear weapons as eighteen Vermont town meetings did in 1981 and one hundred sixty-one did in 1982. The Association urges that a mutually verifiable freeze be followed by reductions in every type of nuclear weapon and that these issues be discussed by all.

The Association calls for the transfer of funds from nuclear weaponry to education and other social

services, and urges its members to work with other concerned organizations to have this issue brought before the public in any appropriate way.

I-12. ETHNIC-MINORITY EDUCATORS

Vermont-NEA believes that ethnically diverse educators are valuable to the school community. The Association urges local affiliates to work to achieve and maintain ethnic diversity in all categories of educational employment. (2002)

I-13. USE OF PREJUDICIAL TERMS AND SYMBOLS

Vermont-NEA deplores prejudice based on race, ethnicity, religion, sexual orientation, gender, age, disability, size, marital status, or economic status and rejects the use of names, symbols, caricatures, emblems, logos, and mascots that promote such prejudice. (2003)

J. OBTAIN FOR ITS MEMBERS THE BENEFITS OF AN INDEPENDENT, UNITED EDUCATION PROFESSION

J-1. MEMBERSHIP PARTICIPATION IN THE ASSOCIATION

Vermont-NEA believes that every member has the right and obligation to participate fully in the Association. The opportunity to participate in the Association must be afforded every member without fear, intimidation, or retribution.

The Association also believes that school policies should provide released time without loss of pay to those who are fulfilling leadership responsibilities, attending meetings, or participating in other Association activities. (2002)

J-2. RETIRED MEMBER PARTICIPATION

Vermont-NEA believes that retired members should be active participants within the Association. Retired members should be involved in areas such as political action, legislative lobbying, member training, crisis assistance, development and maintenance of educational excellence, welfare and safety of children, public relations, and retirement issues. (2002)

J-3. PROMOTION OF TEACHING AS A CAREER CHOICE

Vermont-NEA supports the establishment of organizations involving students interested in the field of education as a profession. The Association believes that it should promote the establishment of such organizations at all age levels and encourage its members to serve as advisors. (2002)
